Experience

Blockchain Developer

Upwork

May 2022 - Present (2 months +)

From what I've gathered/heard, freelancing was another big source of income.

It has its own pros/cons compared to regular jobs.

I'm adding all my projects on my portfolio website.

Blockchain Developer

Trillest Group

Aug 2020 - Present (1 year 11 months +)

Responsible for handling blockchain-related projects with other developers.

My last project is TRILLEST with the same name as the company.

I appreciate my experience here that let me leverage my existing knowledge about blockchain.

Senior Developer

Hidden Brains InfoTech Pvt. Ltd.

Jun 2018 - Jul 2020 (2 years 2 months)

I was responsible for managing a team of nearly 10 developers.

The company had a long track record since 2003 and I really loved their work culture there.

I mainly worked on Web/Mobile projects as a senior developer.

Full Stack Developer

Pineapple Workshop

Jul 2016 - Jun 2018 (2 years)

This was my first experience in the Software Development field.

I worked as a full-stack developer on several projects

RentRoom (<http://getrentroom.com/>)

Quiker (<https://quikerco.com/>)

Memo Maker (<https://memomaker.app/>)

Education

Cornell University

Bachelor's degree, Computer Science

Sep 2013 - May 2016

Licenses & Certifications

Blockchain Basics - Great Learning

COLIABEY

Algorithm in C - Great Learning

WEMWGWTB

Blockchain Process - Great Learning

DVMXYHLP

GO Programming Language - Great Learning

AQSBKXQO

Python Practice Codes - Great Learning

KVFDKCUK

React JS - Great Learning

YLJKGBKV

Solidity - codedamn
